# MOLDOVA'S CREATIVE INDUSTRY PROFILE

2020

MINISTERUL  
EDUCAȚIEI, CULTURII  
ȘI CERCETĂRII

THE CREATIVE ECONOMY  
CREATES OPPORTUNITIES AND  
JOBS FOR TALENT, THAT CANNOT  
BE REPLACED BY MACHINES,  
TECHNOLOGY OR AI.

TALENT IS DEEPLY CONNECTED  
TO HUMAN CREATIVITY AND  
EMOTIONAL INTELLIGENCE.

# WHAT MAKES AN INDUSTRY A CREATIVE INDUSTRY?

The Creative Industry is one that uses conceptual, logical, communication & artistic skills, involving creativity and flow of information, to drive profit.

While the concept of the Creative Economy is new & still evolving, it reflects the idea that creative assets can generate economic growth, create new jobs & export earnings, while at the same time promote social inclusion, cultural diversity and human development.

Creative Industries work in an economy where creativity is considered an input, while content or intellectual property is the output.

## WHAT MAKES THE CREATIVE INDUSTRY UNIQUE, RICH & INNOVATIVE?

1

Adds value to other industries, through design, advertising and branding.

2

It is a major employer of highly skilled people, thus being part of the "knowledge economy" (the part of the economy which employs graduate talent).

3

Connects & works with alternative and higher education.

4

Brings communities and people together through shared experiences, to develop new products and innovative services.

## THE DIVERSE SECTORS OF THE CREATIVE INDUSTRY, WORLDWIDE

### Advertising

Advertising, Marketing & PR Services

### Architecture

Architecture, Engineering, Interior Design

### Design

Graphic, Product

### Crafts

# THE HUGE POTENTIAL OF THE CREATIVE INDUSTRY, WORLDWIDE

source:  
[https://en.unesco.org/creativity/sites/creativity/files/global\\_report\\_fact\\_sheet\\_en.pdf](https://en.unesco.org/creativity/sites/creativity/files/global_report_fact_sheet_en.pdf)

In 2017, the global creative services (cs) sector generated:

In the EU, the core creative industries generated:

Most CCI have a higher percentage of youth employment than in the rest of the economy. In Europe, CCI sectors typically employed more people aged 15–29 years than any other sector. Creative activities contribute significantly to youth employment and careers in CCI are relatively open to people of all ages and backgrounds.

The sector has proven very resilient compared to others during the 2008 economic and financial downturn in Europe.

Creative industries also tend to favor the participation of women compared with more traditional industries.

Creative jobs are future-proof jobs: 87% of creative jobs are at low or no risk of automation.

Moreover, creation is driven by small businesses or individuals, giving rise to agile and innovative businesses.

Top three earners in the creative industries, 2015, billion \$

Top three employers in the creative industries, 2015, million \$

# THE CROSSROADS OF EASTERN & WESTERN CULTURE - MOLDOVA, A SOURCE OF EXTRAORDINARY CREATIVE POTENTIAL

Moldova is uniquely positioned to act as a source of skilled talent for international creative markets, generating high quality creative goods and services for export.

Moldova's creative potential is underpinned by its location at the crossroads of East and West, its wildly successful IT services sector, a skilled creative talent pool, a wide range of existing technologies and engineering skills, and thriving creative services ecosystem, including a range of pro-business incentives to attract international investment and stimulate new enterprises to emerge.

Strong government support for Moldova's ICT, tied to its high-tech available talents and technologies have enabled IT service exports to reach \$164 million in 2018, a 40% increase on 2017 and 40 times growth vs. 2005. With the same advantages and government support, the creative sector is expected to reflect the same level of growth in the coming years.

---

## THE DRIVERS OF MOLDOVA'S CREATIVE INDUSTRY

- Cultural diversity;
  - Crossroads of East and West;
  - Skilled local talent;
  - Access to latest technologies ;
  - Fast internet speed and mature IT industry;
  - Emerging infrastructure and ecosystem;
  - Business tax incentives;
  - Industry supporting associations.

# MOLDOVA'S EMERGING CREATIVE COMPANIES HAVE GREAT GROWTH POTENTIAL

The emerging creative market is formed by more than 2,800 companies, mostly SMEs registered in the State Registry of Legal Entities.

## The number of creative companies in Moldova has a steady growth

Increasing by 20% from 2015 (2,410 companies) to 2018 (2,823 companies).

These tend to be micro-enterprises, employing an average of 7 people per firm. Employees tend to be young, earn good salaries, providing an attractive alternative to migration. Growth in the creative sector will continue this positive trend.

## Moldova boasts an impressive talent pool of creatives, mostly young

Over 13 000 people have jobs in the creative industry. However, the number of those providing services is much larger, including freelancers.

More than 3 000 photographers, 2D & 3D graphic designers & illustrators, sound engineers, post-production & social media representatives, copywriters & voice-over specialists are registered on platforms such as Upwork, Fiver and Guru.com.

They are self-employed, providing their services to both local & international clients.

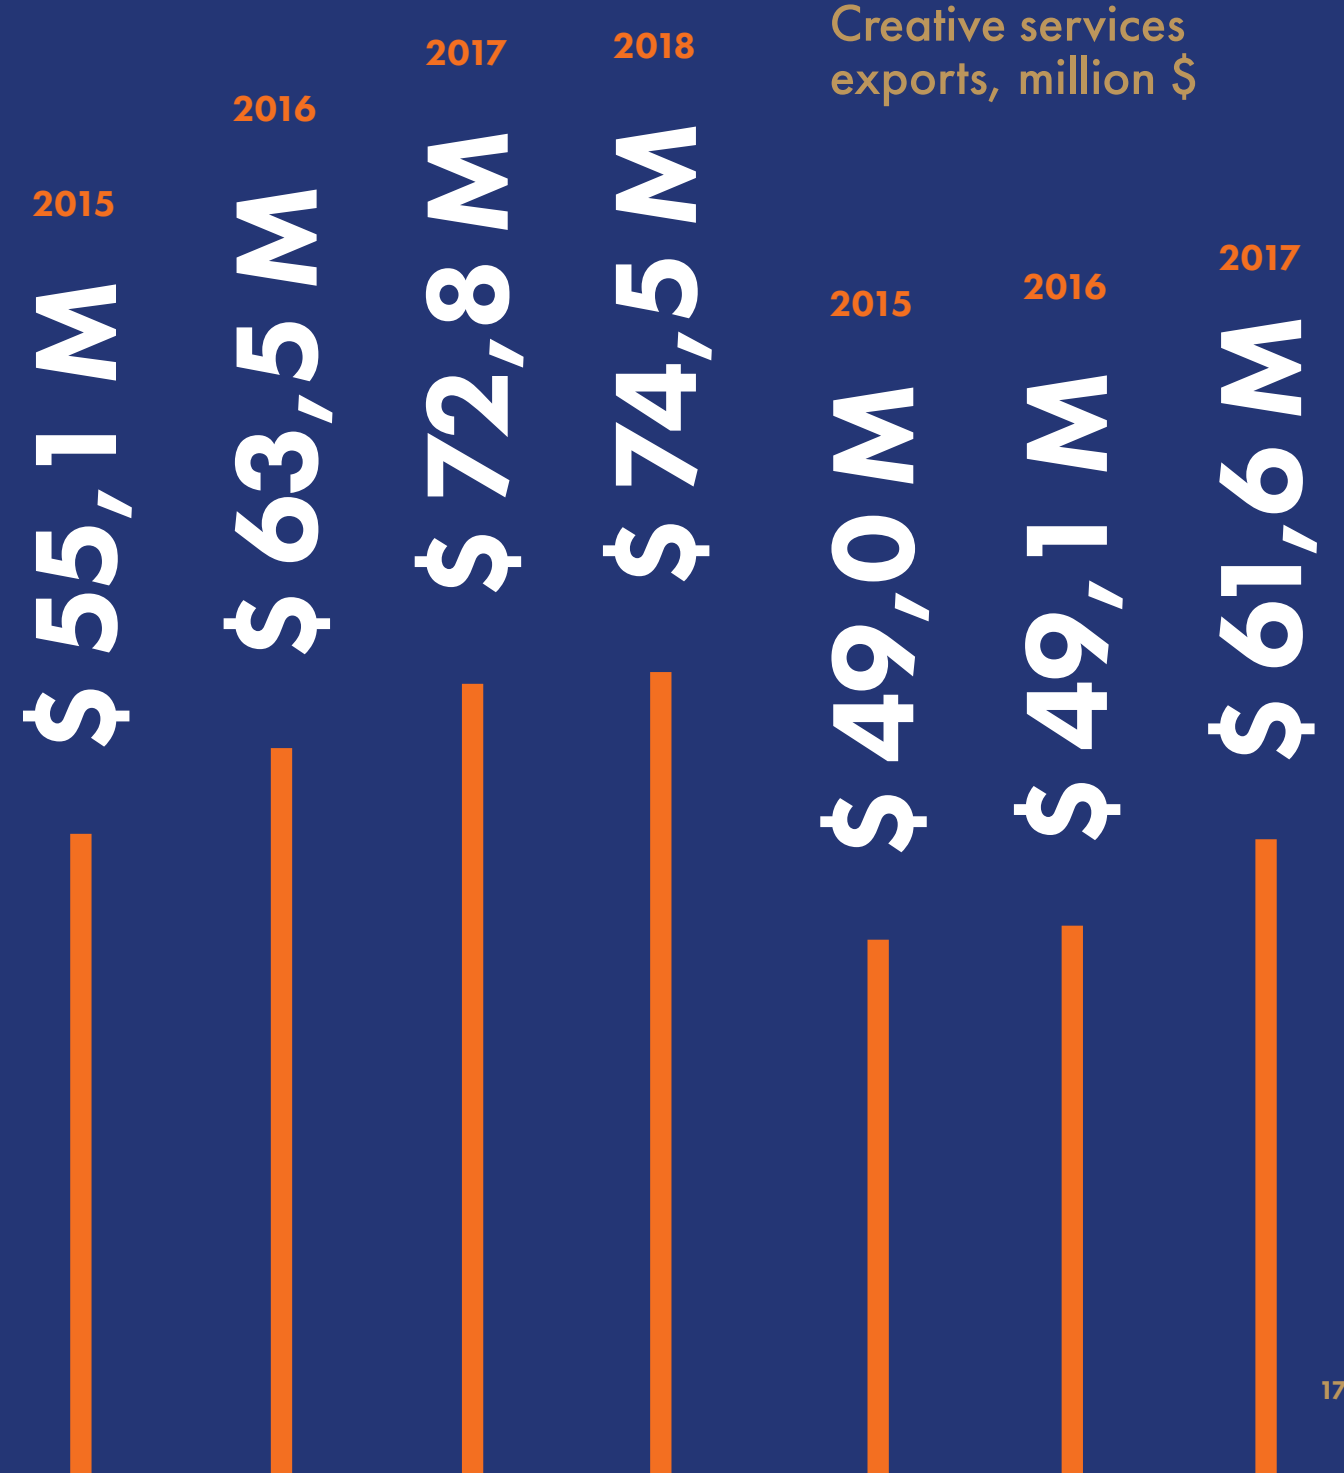

## Sales, million \$

Sales by creative companies have increased 23% since 2015, from \$163 million to \$202 million in 2018.

## Creative goods exports, million \$

Exports of creative goods have also outpaced the growth in number of firms in the sector, increasing 35% from \$55 million in 2015 to \$74.5 million in 2018.

## Creative services exports, million \$

# FREELANCING IN MOLDOVA IS COMMON AMONG YOUNG CREATIVES

The number of Moldovan freelancers operating in the creative industries can be estimated by means of two different sources, and namely the number of patents registered by the State Tax Service and the number of creative freelancers registered on global freelancing platforms. As such, in the 3rd quarter of 2019, the Moldovan State Tax Service registered 1606 freelancers providing services such as photography and video, sound, choreography and fine arts, typing, handicraft, organization of events etc.

Given that the Moldovan Government does not incentivize enough the freelancers and individual enterprises to register their patents, the numbers registered by the State Tax Service can be doubled. This assumption is based on an assessment of Moldovan creative freelancers registered on international platforms.

As such, more than 3,000 Moldovan creative freelancers are registered on Upwork.com, Fiverr.com, Guru.com, Peopleperhour.com, Freelancer.com, Skyword.com, Dribbble.com and other international platforms. The detailed information is presented below.

## FREELANCER ACTIVITIES

- Typing services, including the use of computers;
- Teaching foreign languages;
- Teaching music, choreography and fine arts;
- Organizing interest groups for children;
- Organizing interest groups for adults;
- Photography, video services and photography selling;
- Decorating services, window displays, arts presentation;
- Handicraft manufacturing and rustic art;
- Music services for ceremonies;
- Event organization, stage management;
- Creating and renting decorations and props for events.

# CREATIVE TALENT POTENTIAL IN MOLDOVA

Located at the crossroads of East and West, with multilingual professionals, access to brand new technologies, and some of the best internet connectivity in the world, Moldova's future creative services industry growth lies in developing key export niches that support global creative industry trends.

**The more mature subsectors, with export potential include:**

## Design

Over 500 companies and freelancers specialized in design are registered on Upwork and other international platforms and are exporting their services. Moldovan designers have extensive knowledge in Adobe Illustrator, Adobe Photoshop, and design services range from product design, illustration, identity design, to industrial design, UI and UX.

## Publishing

Fostering publishing services is the only opportunity for Moldova to shift from export of creative services to creative products, which will bring higher value.

## Digital & interactive media

Media content has changed drastically over the last years and people prefer to consume alternative informational channels, online and digital press.

## Film, video production and photography

There are at least 5 film festivals that are held in Moldova on an annual basis, and namely Cronograf international Documentary Film Festival, Animest – International Animation Festival, RAVAC International Film Festival dedicated to fiction films, DAC Film Fest, and Moldox Documentary Film Festival.

The National Cinematography Centre is a supporter of all these festivals, allocating funds from the state budget and supporting the law on cash rebate.

The talent potential in film and video production industry is defined by the services provided in the post-production niche, such as video editing, sound engineering, sound and video special effects VFX, color grading etc.

The first Moldovan virtual reality animated film, **"Aripi"** (Wings), won awards in the categories of Best Music, Best Sound, and audience-driven award for Best Animation. The film has also won prizes at prestigious international film and animation festivals **"Festival du Film Merveilleux et Imaginaire"** in France and the **"International Independent Film Awards"** in the U.S., putting Moldova on the map as a regional creative and production hub.

## SERVICES PROVIDED BASED ON THE VERTICALS

- Composition
- Arrangement
- Sound Design
- Mixing
- Production

## Technologies

- VR/AR
- 3D modeling & virtual prototyping
- Surround sound design
- Motion capture
- 3D animation

# CREATIVE BUSINESS ENVIRON- MENT

## OPENING A CREATIVE COMPANY IN MOLDOVA IS FAR FROM TROUBLESOME

---

The steps needed to open a creative company in Moldova are the same as for opening any other kind of business. Law no.220 / 2007 regarding the state registration of legal persons and individual entrepreneurs sets out that a company can be registered as an SRL or a SA. A SRL, or limited liability company, is the most feasible option in terms of the simplicity of its registration and administration procedures.

1. The founder / founders decide to register the company;
2. The founder / founders elaborate and sign the company constitution agreement, its statute, and the minutes of the constitution meeting;
3. The person authorized by the founder / founders submits the documents to the ASP - Public Services Agency for registration;
4. Within 3 days, ASP will register the company, issue the stamp, and the extract from the State Register of legal entities.

# GENERAL TAXATION: PERSONAL & CORPORATE

The Moldovan Fiscal Code has different forms of taxes applicable to individuals and enterprises:

- 1. Income tax:** at a rate of 12%, this tax is paid from the net income registered by the company and is paid to the state budget.
- 2. Tax for the development of the territory:** this tax is paid to the budget of the local public administration (LPA), and is a fixed amount established by each LPA for each tax year.
- 3. Real estate tax:** this tax is set by each LPA each tax year, as a set percentage of the value of the real estate asset.
- 4. Value added tax:** 20% of the taxable value of imported goods and services, and deliveries made within the territory of the Republic of Moldova.

## TAXATION: SALARIES

### Employer's contributions for paying salaries:

- Social Insurance Fund 18%
- Health insurance premium 4.5%

### Employee's contributions for paying salaries:

- Social Insurance Fund 6%
- Medical insurance 3.5%
- Income tax 12%

For members of Moldova's Virtual IT Park, a number of these taxes are subject to the Flat Tax mechanism.

# CASH REBATE FOR VIDEO PRODUCTION

Expected to launch in 2020, the new cash rebate for video production in Moldova is regulated by Law no.154 / 2018 on attracting foreign investments in the field of film production and other audiovisual works. The rebate is designed to attract foreign film, TV, cartoons and other audiovisual productions to be realized either partly or fully within the Republic of Moldova. The categories of productions and other audiovisual works that can benefit from this financial support are listed in Article 6 of the Law.

Beneficiaries can be the producers, co-producers or the houses of film production and/or other audiovisual works, as long as they are legal persons, registered in the Republic of Moldova and who have a collaboration agreement signed with a producer or a production house.

The financial support is worth 25% of the total eligible expenses incurred on the territory of the Republic of Moldova, to which a further 5% can be added if the geographical area, the locality or the Republic of Moldova is promoted within the film or audiovisual work. The minimum investment budget to be eligible for the rebate is listed in Article 7 of the Law.

[www.filinmoldova.com/about-cash-rebate](http://www.filinmoldova.com/about-cash-rebate)

## INTELLECTUAL PROPERTY RIGHTS (IPR) LEGISLATION

The State Agency on Intellectual Property (AGEPI) is the central administrative authority subordinated to the Government of Moldova, responsible for promoting and implementing activities in the field of legal protection of intellectual property related to industrial property rights, copyright and related rights. Interested parties can register brands, audio, video and written materials and also license contracts on exclusive or non-exclusive rights.

Intellectual Property Rights in Moldova are regulated by two laws:

### Law no.139/2010

on intellectual property and other related rights

### Law no.38/2008

on brands protection

# TAX & INCENTIVES: CREATIVE COMPANIES

**Moldova IT Park benefits a single 7% taxation, compared to a general one of 45%**

Moldova IT Park was created according to the Decision of the Government of the Republic of Moldova. The (virtual) IT Parks are regulated by Law no.77 / 2016 on the parks for information technology and GD 1144/2017.

Members of Moldova IT Park pay one simple flat tax, representing 7% of corporate turnover. In July 2018, the Law on IT Parks was amended to allow companies from the Creative Services Industry (e.g. graphic design, animation and visual effects) to join the Virtual Park infrastructure and benefit from its 7% flat tax.

# CREATIVE ACTIVITIES ELIGIBLE FOR VIRTUAL PARK MEMBERSHIP:

# 1

**Motion picture, video and television program post-production activities (59.12), limited to:**

- services for obtaining special effects (59.12.14)
- animation production services (59.12.15)

# 2

**Specialized design activities (74.10)**

# BENEFITS OF IT PARK RESIDENTS

- They pay a single tax in the amount of 7% of the sales income reflected in the monthly accounting records.
- They can benefit from allocations, obtained through competition within state programs, and funds from the risk funds created with the participation of the government.
- Unlike ordinary taxpayers, they do not have the obligation to keep records and calculate the fixed assets' depreciation for tax purposes in the manner provided by title II of the fiscal code, this being done only for financial purposes, in accordance with the accounting rules.
- Upon the prior payment of dividends, the IT Park residents do not have the obligation to pay the corporate income tax.
- Foreign nationals employed by the IT Park residents can benefit from a longer period of stay under the right of temporary stay for work purposes.
- Foreign nationals temporarily being in Moldova for the benefit of the IT Park residents can carry out work activities in Moldova for a period of up to 90 days calculated cumulatively during any period of 6 months, being only required to notify the BMA (without obtaining a right of temporary stay for work purposes).

**The single tax includes and substitutes 7 types of taxes and duties, namely:**

- The corporate income tax (CIT),
- The personal income tax (PIT),
- Compulsory social security contributions due by the employees and the employers,
- Compulsory health insurance contributions due by the employees and the employers,
- Local taxes,
- Real estate tax,
- The road fee for the use of vehicles registered in Moldova.

Foreign employees hired by the residents of Moldova IT Park benefit from a simplified procedure to obtain visas and work permits. To date, IT and tech specialists from Russia, France, India, Italy, Ukraine and Sweden have taken advantage of this process, demonstrating the attractiveness of Moldova as a location for the increasingly mobile global creative community.

# MOLDOVA'S CREATIVES HAVE SUPPORT TO THRIVE

CREATIVE SECTOR PROVIDES  
OPPORTUNITIES TO CAPITALIZE TALENT,  
BOOST COMPETITIVENESS AND  
STRENGTHEN SOCIAL COHESION

The role of Moldova's Creative Industries as contributor to economic growth, employment and sustainable development gets significant attention by the Government through different strategic documents such as the Culture 2020 Strategy by the Ministry of Education, Culture and Research and the Law No. 77 on IT Parks by the Ministry of Economy and Infrastructure.

A thriving Creative Industry requires a thriving creative ecosystem. Moldova's Creative Sector has an increasing number of industry support organizations & networks, that work together.

# ORGANIZATIONS & NETWORK

## The Investment Agency

The Investment Agency known as Invest Moldova, is the Moldovan Government's key agency for the development of international trade, and the prime source of information and assistance for potential investors. The Agency provides tailored services for potential investors throughout the investment decision process, supports existing investors in extending their operations inside Moldova, and works with Moldovan SMEs to promote their services on the international stage.

[www.invest.gov.md](http://www.invest.gov.md)

## Moldova IT Park

Moldova IT Park is Moldova's first Virtual IT Park, and acts as the main focal point of access to best services and incentives for the IT and supporting Creative Services sector. Its mission is to act as a catalyst for investment in IT sector through promoting a flexible government policy towards IT and supporting Creative industries, nurturing an environment conducive to innovation and a digitally transformed economy through a strong IT and Creative sector. The Park creates a competitive business environment through a single flat tax rate of 7% on turnover, diminished bureaucratic barriers, exemption from taxes for company employees, facilitated issuing of residency permit and virtual presence.

[www.moldovaitpark.md](http://www.moldovaitpark.md)

## The National Film Center in Moldova

The National Film Center in Moldova (CNC Moldova) is a public institution dedicated to the promotion of the Moldovan Film Industry and protecting, developing and enhancing its national cinematographic heritage. As a public body, CNC Moldova is subordinated to the Ministry of Culture Education and Research, with activities ranging from encouraging the development of the domestic film industry and stimulating Moldovan film-going culture to protecting the heritage of national cinematography and implementing state policies to enhance the sector.

[www.cnc.md](http://www.cnc.md)

## COR

The Association of Creative Industries Companies (COR) was launched in 2017 to act as a unified voice in for the future development of Moldova's creative industries and enable growth and representation of each subsector of the industry. Members primarily represent creative and marketing agencies, graphic design, architecture companies, video production and rental houses, sound design, music production and animation studios. The Association supports these industries to collaborate to reach export markets and build the skills of the creative industries workforce through trainings and events at the Creative Industry Center ARTCOR, which it also manages.

[www.cor.md](http://www.cor.md)

## ARTCOR

COR manages in partnership with the Academy of Arts the Artcor Creative Industries Center. Artcor was officially launched in Moldova in June 2019. With an innovative structural design, Artcor provides access to cutting-edge technology, a co-working space, training opportunities, and a dynamic ecosystem for Moldova's Creative Services Industry. More than 1,000 companies, freelancers, students, and other sector professionals are now able to access new technologies and cutting-edge software, and work in the multifunctional collaborative space, which is also equipped to host events from exhibitions to product launches. Artcor aims to enhance the global knowledge, technology and business skills of creative industry professionals, and contribute to the development of a sustainable, export-oriented Creative Services Industry in Moldova.

[www.artcor.md](http://www.artcor.md)

# THE HEROES OF THE CREATIVE INDUSTRY

THE MEMBERS OF COR  
JOINTLY PROMOTE  
ITS MISSION AND VALUES

Some benefits include networking with people from close spheres, access to COR events and projects, lobby & advocacy through an unique voice for industry development, common access & promotion in foreign markets, common access to donor funds available for industry development, align efforts to access and educate talents within the Creative Hub.
